**FIM FRHPhe-02 Off-road homologated helmets for 2026
Manufacturers' contact list (Update 26.01.2026) (S1GP)**

Dear all,

As you know, the FIM, in collaboration with helmet manufacturers, launched Phase 2 of the FIM helmet homologation process for Off-Road Racing, three years ago. The launch date for this new, more demanding safety standard was set for January 1, 2026.

Please carefully check the helmet list that meet the standards and are homologated.

We ask you to take the necessary precautions so as not to arrive at the first GP without helmets that meet the new FIM homologation standards **FIM FRHPhe-02**.

The homologation of these helmet models is confirmed by the mandatory presence of the FIM homologation label sewn on the chin strap.

Some brands are willing to assist riders whose helmets are not on this list.

The FIM International Technical Commission (CTI) would like to share officially by this letter the list of the **official reference contacts** declared by each helmet manufacturer homologated on 12 February, for any question, request or order.

Brand	Contact	Email
6D	Shop online	https://eu.6dhelmets.com/
	US contact: Dean Johansen	djohansen@6dhelmets.com
	EU contact: Charles Kohut	kohut@sevengmbh.com
